Words from Editor

2012 is the Year of Dragon. Traditionally, "Dragon" represents a symbol of good fortune and a sign of intense power. This is true for JCIHK when the important JCI event, Asia-Pacific Conference, will be held in Hong Kong in 2012.

In this introductory issue, the Harbour Lights will show you the new faces of the JCI and the JCIHK and their plans of actions in this significant year. I hope you enjoy reading it and let us "DECIDE OUR FUTURE" in 2012.

Happy 2012!

JCI Creed
WE BELIEVE

- That faith in God gives meaning and purpose to human life;
- That the brotherhood of man transcends the sovereignty of nations;
- That economic justice can best be won by free men through free enterprise;
- That government should be of laws rather than of men;
- That earth's great treasure lies in human personality;
- And that service to humanity is the best work of life.

Message from National President

Stanley NG

I am honoured to have been elected to the presidency of this organization. I realize the weight of responsibilities that now devolves on me and I pledge that I will do my utmost to fulfill it.

JC movement never stops. Every year, members of JCI Hong Kong organize more than 300 projects for a better world. In addition to the flagship Ten Outstanding Young Persons Selection, JCI Hong Kong continues to take the lead in organizing “Better World Projects”, which echo the United Nations Millennium Development Goals. Members will have a stronger bond with mainland through series of exchange programs especially that 2012 is the 15th anniversary of handover. Moreover, we will introduce United Nations Global Compact to Hong Kong for our continuous expansion of “Better World Company” and “Better World Schools”. I am confident that JC movement in Hong Kong will continue to flourish and to find new solutions to address social issues.

2012 is an international year of JCI Hong Kong. With the trust from all the nations in Asia-Pacific, JCI Hong Kong is honoured to host the JCI Asia-Pacific Conference to strengthen the strong JCI global network in the region. All the young active citizens in Hong Kong and the Asia-Pacific will be united in town to exchange ideas, gain a global perspective and bring what they experienced in the process to their home organizations. All Hong Kong Jaycees, let us be the best host!

“We Decide Our Future” is our slogan this year. Our decisions and actions today decide the future that we and our next generation face. I hope we can proudly present the efforts made today when we look back after 5, 10 or 30 years.

As the National President, it will be my purpose not only to maintain our present level of development, but also to unite the HKSAR Government, Central People’s Government, private entities, NGO partners, young people and the community to further progress so that our next generation will find Hong Kong an even better city to live in.

Last but not least, wishing you all a Prosperous, Healthy and Fruitful Year of 2012!

Stanley Ng

JCI President

Bertolt Daems

Passion into Action

Our JCI President believes that we can make our dream of peace come true through JCI. A typical Dutch soccer fan, he envisages that this can be done by acting and doing, as opposed to meetings alone. We already have UNMDG as our guiding principle for meaningful projects. What more can be done? President Bertolt has the following ideas:

- 1) Link up partners that strengthen our actions, as presented in the Active Citizen Framework
- 2) Create a global alumni network and involve past JCI members in our action as we head towards the 100th anniversary
- 3) Open up a platform which is attractive to young members and also showcases what we are doing and how these actions contribute to a better world

JCI Active Citizen Framework

To create a better world

As JCI members, our Mission is to create positive change in the world. We believe that by taking responsibility for our communities, we can create solutions to the problems we see around us. But just talking about positive change is not enough. To make an impact, we must walk the talk. With the JCI Active Citizen Framework, JCI introduces a concrete method for developing, executing and tracking our initiatives to ensure successful projects and sustainable solutions to problems in our world.

With the UN Millennium Development Goals as a foundation, the JCI Active Citizen Framework provides a global platform for measurable, results-driven actionable steps that produce positive change. Following the 2010 JCI Global Partnership Summit, JCI has committed to developing partnerships across the three sectors – business, government and civil society. The JCI Active Citizen Framework will also provide a context for building partnerships with entities mutually aligned with our goals. By assessing local needs, we can gain a reputation for relevance, and by measuring our results, we can clearly demonstrate our impact.

Objectives:

- Empower and activate young people to take ownership of their communities.
- Provide a framework for sustainable action that produces tangible results and measurable societal development.
- Align JCI partners at global, national and local levels in cohesive, strategic format for societal development.

This can be achieved through:

- Activation and Training – the JCI Impact training course
- Analyzing Community Needs
- Formulating Sustainable Solutions
- Engaging Partners and Taking Action
- Measuring and Evaluating Results

To become the leading global network of young active citizens, JCI must lead in thought, words, actions and results. We must turn our focus outward toward activities that are relevant to our communities. Instead of resting on the accomplishments of yesterday, we must look to the future and create solutions for tomorrow. JCI has a unique opportunity to make great progress toward global development and the achievement of the MDGs. The JCI Active Citizen Framework provides the structure we need to act as one global team and create a global impact.
