Word from The Editor

This is my great pleasure to be the Chief Editor of Harbour Lights Issue 3.

We had a nice visit to the Hong Kong Science Park for conducting an interview with Mr. Michael Tsui. Michael is the founder of Rehab-Robotics Company Limited, which has invented the "Hand of Hope" to help the hand rehabilitation of stroke patients. We are so impressed to Michael's innovation and contribution to stroke patients, and we hope that the interview can provide positive inspiration and motivation to our JCI members.

JCI Creed

We Believe:

That faith in God gives meaning and purpose to human life;

That the brotherhood of man transcends the sovereignty of nations;

That economic justice can best be won by free men through free enterprise;

That government should be of laws rather than of men;

That earth's great treasure lies in human personality;

And that service to humanity is the best work of life.

MESSAGE FROM NATIONAL PRESIDENT ANTHONY LEUNG

Time really flies, we have reached the last quarter of 2015 and all that have happened this year will become a memorable history soon. JCI Hong Kong National Board of Directors, Local Presidents and their board of directors have learnt and acquired better JC knowledge and experiences through over 400 projects and supporting events in order to become a network of Active Citizens for better Hong Kong and better world.

Though year end is approaching, our work has not stopped in this last quarter of the year. Our National Convention has been a great event that everyone enjoyed. The JCI Hong Kong Ten Outstanding Young Persons Selection was successfully held to much acclaim. I sincerely thank both teams for your tremendous work.

AGM season is here and it is the time we report to our beloved members the work and result achieved in the year. Though I was not able to attend every LOM AGM, I would like to extend my appreciation for each AGM being held successfully.

An AGM is more than a yearly routine, it is the time where old friends meet, achievements reviewed, promises made and new leaders elected. You have done a fabulous job. And I congratulate all the president elects. 2016 is your moment on stage and to lead your chapter to shine. Work hard and keep up the good work.

Year 2015 has been a memorable year, though the yearend is near, the spirit will not end. I thank all of you for making 2015 a fabulous year, and wish you all a great 2016 ahead!

INTERVIEW WITH **Mr. Michael Tsui** The CEO of Deltason Medical Limited and Rehab-Robotics Company Limited

Mr. Michael Tsui is the CEO of Deltason Medical Limited and Rehab-Robotics Company Limited. He has almost 20 years of experience in occupational therapy, physical rehabilitation and pharmacy automation project. Deltason Medical Limited is a Hong Kong based trading company for advanced rehabilitation and pharmacy system, while Rehab-Robotics Company Limited is the manufacturer of "Hand of Hope" - an sEMG-driven hand rehabilitation system.

Rehab-Robotics Company Limited was founded in 2010, and the Company has already got 5 awards in these 5 years, including a Grand Prix Award presented by the International Exhibition of Inventions of Geneva in 2012. The International Exhibition of Inventions of Geneva is widely acknowledged as one of the most important invention exhibitions globally. Each year, more than 1,000 new inventions are showcased by companies, inventors, universities, institutes, as well as public and private organizations. The Grand Prix is granted to a Hong Kong company for the first time in 40 years.

It's been our pleasure to have an interview with Michael. Michael told us that after he graduated from the Hong Kong Polytechnic University, he started his career in a residential care home for elderlies, where he approached many stroke patients and encountered how elderlies reacted to treatments. He has understood from his experience that since the lifespan of elderlies are short, they don't have

the motivation to endure painful treatment. At the same time, it was the time China and the UK were negotiating for 1997, and people were not confident to the future and wanted to emigrate. Michael didn't see the prospect of working in residential care home for elderlies, hence he started his entrepreneur life where his company trades advanced rehabilitation and pharmacy system that Hong Kong lacks of.

He found himself doing what he is good at and his life became more fruitful after being an entrepreneur. At the same time, he still cares about the rehabilitation field. Michael has noted that the market has got quite a lot of artificial legs for rehabilitation of stroke patients, while artificial

hand was still a gap but patients need it as well. He worked together with Professor Tong from the Hong Kong Polytechnic University on a research of developing artificial hand (later named as "Hand of Hope") helping stroke patients. They encountered several problems during the development - they needed to develop many versions of prototypes, the R&D director quitted during the process and many more. But at the same time they have achieved a great success once they have tackled those problems, including but not limited to being recognized by the Hong Kong Polytechnic University as an outstanding alumnus, and awarded with the Grand Prix Award presented by the International Exhibition of Inventions of Geneva in 2012.

Michael was very kind to explain how the "Hand of Hope" helps stroke patients. Due to the structure of the brain, stroke usually damage the "motor area" of the brain, making patients not being able to control their muscles well. Patients actually can transfer weak muscle signal to

Rehab Robotics

their hand muscles, and their muscles are well function. "Hand of Hope" can detect the weak muscle signals and help patients' muscles to do part of their work. With this assistance by the "Hand of Hope", stroke patients can train up their muscles and rebuild the nerve connection.

There are approximately 1,000 to 1,200 patients that have used the "Hand of Hope", and it helps a Hong Kong ping pong representative of the Paralympic Games to improve the functioning of his hands. Currently patients mainly perform the treatment in hospital, but transportation is always a trouble for stroke patients. In order to help more patients, Michael is planning to launch a rental program with lighter appliances which patients can perform treatments at home.

Regarding youth development, Michael emphasises that youth in Hong Kong should think positively and globally. For example, PRC has been improving very significantly in the past few years and is currently very strong in technology area. We are now competing globally, and if we still see the world by our old mindset, our development will be highly hindered.

Michael thinks Hong Kong people are always under big pressure and too fast paced - this is not ideal for both wellness and developing creativity of the society. "Innovation is created under slow pace, and great innovation may not have a huge economical value but solve social problem" Michael said. He has observed that the culture of Hong Kong respect money more than contribution, and people focus on how to make a business big and listed, which hinders the development of innovation. Hong Kong should try to encourage and nurture a new culture to protect innovation.

Final judging of JCI Hong Kong Ten Outstanding Young Persons Selection 2015 is completed and we have reached the final stages of the project. The Selection Result Announcement Press Conference will be held on Sunday, at 12:30am, 11 October 2015 at Regal Hong Kong Hotel, and we would like to invite all JCI Hong Kong members to attend this important moment of our flagship project.

The selected TOYPs will participate in our Community Service Day on 15 November 2015, and this year the theme of the CS Day will be elderly services. If you are interested to sponsor or participate our CS day you are more than welcome to contact us.

Last but not least, the Award Banquet of the project will be held on 13 December 2015, 6:30pm at Hong Kong Conference and Exhibition Centre, and we sincerely invite all members to participate. This we will also celebrate the 45th Anniversary of this flagship project of JCI Hong Kong. Please contact your chapter for registration.

We look forward to seeing you in all up coming events.

Official Website: <http://jciwc2015.com/>

JCI 
2015 JCI WORLD CONGRESS
KANAZAWA, JAPAN

The first Joint Directors Meeting 2015

The first Joint Directors Meeting 2015 was held on 27 June 2015 (Sat) at 2:00 pm at Confucius Hall Secondary School. Over 100 Directors from NOM and LOMs attended. We were honour to have invited representatives from the Education Bureau to share on life planning in the Executive Development Programme. After that, the LOMs Directors exchanged opinion with NOM officers and we shared a fruitful afternoon.

Glory With Appreciation! JCIHK 2015 e-Bidbook Seminar II

JCIHK e-Bidbook Seminar II, which was successfully held on 6 July, 2015 with 95 JCs attending it. The seminar let audiences know the secret of award winning bidbook and stand at the stage is glory with appreciation to mother chapter in National Convention 2015.

Senator Cynthia Wong shared the bidbook technique from the viewpoint of judge, the content of bidbook should be focused on JCI vision, mission and impact created; NVP Calvin Kwok mainly talked about the strategy on writing a bidbook, award manual, bidbook submission system and how past LOM project

award should be studied before starting. He suggested LOM to nominate candidate of board member to be award judge as this will be a long-term benefit to LOM. It would be better to write bidbook in default order and word count carefully. Both guest speakers reminded everyone about time management.

With this excellent sharing, it is for sure that great bidbooks will be created by our various chapters signifying the glory of excellent projects.

President Academy Training Camp 2015

As a global remarkable organization of leadership training for young people, JCIHK provides numerous high-quality training for its members every year. During 25-26 July, the President Academy Training Camp 2015 was held at Jao Tsung-I Academy with the 32 new president candidates from 20 local chapters and JCIHK board of director candidates joined the President Academy 2015 Training Camp.

"Leadership with Appreciation" is the core objective of this training camp. We hope the candidates will become dedicated leaders who are ready to develop a better Hong Kong and create positive changes to the world. In the Graduation Ceremony of the Training Camp, over 120 JCIHK members joined the touching moment of the trainees' sharing session and

certificate presentation, and witnessed the candidates' personal growth and friendships. This training provides executive skills in chapter management and leadership, as well as a clear direction for candidates to determine their chapters' goals and objectives for the coming year. Head trainer NP Senator Anthony Leung, Guest speakers NPA Senator Paul Wu, PNP Senator Louise Chan, PNP Senator Alice Liu, and PNP Senator Clement Woo - had led the participants to realize the JCI Opportunities.

July Tea Gathering - FengShui About Environment Around You

FengShui is a Chinese traditional method on environment design for living. Alumni Club arranged this special topic about finger prints to tell your fortune in July tea gathering.

Senior Member Club Chairmen Gathering

This time the Senior Member Club Chairmen Gathering was held in the horse racing court. It was a funny and happy night for more chance to communicate between Senior Member Club Chairmen.

Visit JCI Taiwan Senior Member Club

By Invitation from JCI Taiwan Senior Member Club, JCIHK Alumni Club visited Taiwan to increase the friendship of senior members between 2 different regions.

MaJong Competition-HK region

Each year, JCIHK Alumni Club and JCI Macau Senior Member Association will have a MaJong competition. To prepare for this competition, we have organised a pre-trial MaJong competition for JCIHK Senior members on 23 August to practice the skills. And now, we are ready to find out who is the expert in MaJong on the upcoming real competition.

JCI Dragon : DJC 5 star training camp

28th June, 2015 - A meaningful day for 30 Jaycees; they are graduated from 21st 5-Star Training Camp, and get ready for their honorable JC Life.

21st 5-Star Training Camp is the 21st training camp tailor-made for new Jaycees to get them prepared for their future. The scheme started since 2008. Er new Jaycees from all the chapters, and train them about JC knowledge, protocol, project management, etc.

The camp this time is very special in 5-star training camp's history; the 1st time we have cash sponsor for the camp, the 1st time we have BBQ section at the end of the camp, and the 1st time we have camp trainees from different chapters to host a post-camp gathering project together. Undoubtedly, all the Jaycees joined the camp are nurtured, and will be valuable to not only JCI, but also the society.
