Message from National President Johnny Kwan

For the past 63 years, JCI Hong Kong has established a solid foundation and set high standards in our services to the community. It is now our turn to carry the torch. This year, I am much honored to have the opportunity to serve as National President. Together as one team, we hold the torch and let the flame shines in every corner of our community.

This year, JCI Hong Kong will continue to emphasize the importance of 'Global Active Citizenship' and as a platform to create positive change in the community. Our active citizens programs concern everyone. For the past one hundred days, I have been gone through numerous events and activities to see many different JC movements continue to impact our members. In order to echo the 'JCI Active Citizen Framework', we have been actively engaged with government officials and community leaders to exchange views toward youth development in Hong Kong. One of our signature projects 'Active Citizen Forum' to be held in May will be focused on Education Development and Youth Competitiveness in Hong Kong. Through this forum we would like to drive the awareness of the future development of our young people comparing the rest of the world. I am sure our prominent speakers will share their insights and engage the audience to draw a bright future of our young people and of Hong Kong.

Hong Kong is under transformation and changes. It is not easy to drive a new direction. We have to deal with many new challenges in various issues. People in Hong Kong is very fortune when we think of the political unrest in Ukraine or the people who got lost in the MH370. Hong Kong does not have serious natural disasters, we shall continue to focus on our strengths and bring positive energy toward others. Being the new generation of community young leaders, we are proud of our commitment towards making Hong Kong a better place to live and we shall treasure the opportunities ahead of us. Let this noble goal be our guiding light in advancing the JC movement!

Unite to Impact. Let's Shine.

Interview with 2014 JCI President Senator Shine Bhaskaran

On 6th January 2014, before the Inauguration Ball of JCI Hong Kong starts, the publication team had an interview with the 2014 JCI President Senator Shine Bhaskaran, and was inspired by his vision and tips on leadership.

Interview with 2014 JCI President Senator Shine Bhaskaran

The Man To Lead

The New Year had just started. As the head of an organization that has branches in 117 countries, the start of a new year marks the start of a world-bound journey. JCI Hong Kong had its Inaugural Ball on 6th January, and 2014 JCI President Senator Shine Bhaskaran arrived at Hong Kong that afternoon, having attended that of Taiwan. Then he left the next morning.

"I plan to visit 50-70 countries this year," President Bhaskaran told Harbour Lights. "I can visit more, but I want to have deeper understanding of each place I visit, than to stretch too far to visit as many places as I can," he added.

This echoes the message he wants to bring to the world this year. In his meeting with chapter presidents, he emphasized that local chapters can bring positive changes to their communities, but the emphasis shall be more on impact than numbers.

This message has its repercussions from outside of JCI. People are identified by numbers, corporate results are judged by numbers, and as every JCI member knows, bid books are filled with numbers too.

So how to ditch the trend? "We should focus more on the impact of projects, and consider whether the changes that the projects bring about are sustainable." Nothing But Nets sprang to mind. It is a coordinated project between the United Nations and JCI to fight malaria since 2008. It is a sustained effort that saved many lives.

To be a successful leader, it is crucial to manage his time well. So how does President Bhaskaran manage his time, especially when he is on the road most of time? "It is important to communicate clearly your schedule with your family and your colleagues. Call them frequently so they know you have them in your mind. It is important to have the support of those around you," said President Bhaskaran. A lawyer by training, President Bhaskaran professes in working under tight schedules. "Of course sometimes you have to compromise, for example sacrificing your leisure time."

Though President Bhaskaran had travelled non-stop before he arrived at Hong Kong, he was not at all tired. In fact, his eyes spoke his name. It is fitting to have President Senator Shine Bhaskaran as the guest for the NOM whose slogan of the year is Let's Shine. He shined, and we were inspired.

"We should focus more on the impact of projects, and consider whether the changes that the projects bring about are sustainable."

It's our great honor to have the unstinting support of our honorable guests including the President of the Legislative Council-Tsang Yok-Sing, GBS, JP, the Secretary for Education of the Government of the HKSAR- Eddie Ng Hak-Kim, SBS, JP, the Director General of Youth Department of the Liaison Office of the Central People's Government in the HKSAR- Mr. Chen Lin and our JCI World President- Mr. Shine Bhaskaran to officiate our opening ceremony.

Let's Shine is the slogan and theme of JCIHK 2014. Echo to that, "Light Up Yourself. Light up Others!" was the slogan of the 2014 Inaugural Ball. JCI is a great platform to "Light Up Yourself", that our members can be trained up to be future leaders through our training and projects. At the ball, our dress code was "Let's Shine", and our members dressed up shiny, elegant and classic, like the movie "The Great Gatsby"!

We also encourage our members to "Light Up Others", by helping people in need and empowering young people to make sustainable positive changes. We have invited a group of students with visual impairment to be our performers, and we wish to showcase of their amazing talents at our platform. Our members and guests paid not only full attention to their fantastic performance; they also busily took video and photos to share out instantly with their friends via different social media. Their effort has made the performers shine, not only in front of 480 guests in the ball but lots of their friends who were impressed by their wonderful performance. Light Up Yourself. Light Up Others. Let's Shine!

It is a fruitful and remarkable beginning for JCIHK at first quarter of 2014. Visiting different government bureau, National President, Senator Johnny Kwan and LOM Presidents or representatives took these opportunities to present "How JCI projects improve young people competitiveness?" Open discussion with different topics has been hold with the bureau chief officers.

JCIHK 1ST SENATE DINNER

The Basic Law stipulates the ultimate aim of selecting the Chief Executive and all Legislative Council Members through universal suffrage. It is the common aspiration of the Central Authorities, the HKSAR Government and the public at large to achieve universal suffrage. It is also a constitutional responsibility and an important policy objective of the current term Government.

As one of the most representative youth organizations in Hong Kong, JCIHK Senate had invited the guest speaker Mr. Lau Kong Wah, Under Secretary for Constitutional and Mainland Affairs Bureau to share the basic background of the selection campaign in the public consultation in our 2014 JCIHK First Senate Dinner

After his sharing, our Senate members have expressed different views on the selection including the methodology, criteria for Chief Executive's candidates, different Policy parties' views.

We would like to express our views on universal suffrage for the Chief Executive election in 2017 and the 2016 Legislative Council electoral method to government directly and take forward Hong Kong's democratic development together.

"When you become a leader, success is all about growing others."
- Jack Welch.

As a pool of young professionals, JCI Sha Tin aims to nurture our young generation. V-support Mock Interview program was established to achieve this goal. The first program was launched in February in which over 80 students participated. After the event, 100% of students reflected that the program gave them an insight on preparing the interview in real working environment. A series of activities including work shadowing, industries' sharing and mock interviews will be organized throughout the year. Our Sha Tin Power will continue to light up the youngsters and help them to shine in their career life.
